

Hydro-PEX Barbed Brass Fittings

Specification Sheet

Engineering Specification:

Hydro-PEX barbed brass fittings are designed and approved for use with Hydro-Plumb Plus PEX for hot and cold water applications, Hydro-Heat barrier PEX for radiant heating applications. All barbed Hydro-PEX fitting attachments require the use of an additional crimp ring and crimping tool or cinch clamp and cinch clamp tool for fitting attachment, as outlined in the Hydro-Plumb Plus / Hydro-Heat Installation Guide.

Hydro-PEX Barbed Brass Fittings are manufactured in accordance with the "Buy American Act - Construction Materials / Designated Country."

Installation:

All Hydro-PEX barbed brass fittings must be installed in accordance with all Hydro-PEX Systems installation instructions, including information provided in Hydro-Plumb Plus/ Hydro-Heat Installation Guide.

Approvals:

Manufactured in accordance with American Society for Testing and Materials ASTM F-877 and F-1807.

Listed by the National Sanitation Foundation to NSF Standards 14 and 61 for use in potable water systems.

Listed by NSF to be in compliance to the Uniform Plumbing Code.

Listed by CSA to be compliant to the CSA Standard B137.5
